

The GitHub folder for applying the classification techniques in Personalisation and Machine Learning to preprocess the open-source dataset (site Kaggle) of Movie Genre from its Poster is created by Yuxin Guo, and the Student ID is 23009014.

My Github link: <https://github.com/Stramony/23-24-Personalisation-and-Machine-Learning>

There are two main files: movie_recommendation_Vit-GPT2, and
movie_recommendation_Blip

Please run the code carefully as the Vit-GPT2 and BLIP models take a long time to run.
